EDUCATION

Bachelors in Computer Science
Riphah International University, Fsd

09/2019 - 07/2023   *3.4 CGPA*

Skills
- Strong emphasis on full-stack development encompassing modules related to both front-end and back-end procedures.
- Thorough project documentation spanning from gathering requirements to final deployment.

PERSONAL PROJECTS

Scan o Spectacles (MongoDB, Python, Django, IoT)
- A facial recognition and criminal detection system that uses machine learning to match faces in real-time. The project mainly focuses on face detection, email alert, video records, and record management.

Cottage Marquee (Odoo, Django)
- A POS and reservation system for a real-life client (Cottage Marquee). Developed from scratch during my internship at AmazeWorks. The system includes accounts, sale, reservation, inventory, and expenses as its main modules.

Airline Reservation System (Java)
- A simple reservation management system that performs CRUD operations. Major functionality includes ticket purchasing, reservation, and airline selection.

Pharmacy Management System (Python)
- Another CRUD based project that manages pharmacy operations. Includes inventory, prescriptions, and patient records.

WORK EXPERIENCE

Junior Developer
AmazeWorks Technologies

08/2022 - 10/2022

Achievements/Tasks
- Back-End Web Development

Freelancer
Upwork

12/2020 - Present
